

# INTRODUCING LAKI

# WHO WE ARE

LAKI is a "Family First" company.

The owners pouring everything into bringing only the best to our clients and families, but most of all, they believe in taking hands and spreading love, acceptance and upliftment throughout our extensive LAKI-family.

LAKI was started by L'Lani & Riki, thus the name LAKI.

Our owners are ordinary people, just like you and me. They produce and pack our products themselves.

**We are the first full extract cannabis oil company to be listed on the medical directory of doctors in South Africa!**

We have a variety of oils and products for the whole family; including your fur babies!

### **MCT OIL**

MCT helps with healthy weight loss.

MCT can be used in smoothies and coffee.

MCT stays liquid at room temperature and contains only medium chain triglycerides.

MCT does not break your fast.

Gives energy, provides brain fuel and reduces sugar cravings. This oil bypasses the liver which means one less organ in the digestive system to fight and that means faster results.
